

A RIGHTEOUS AMENDMENT.

A constitutional amendment has been offered in the California Legislature calling for a radical change in the jury system. It is a move in the right direction and one which should be taken in Nevada. The amendment provides that in trials on charges of felony the jury need not be unanimous, but that three-fourths or five-sixths of the jury shall be sufficient to render a verdict. This change would correspond with the practice in foreign countries. In Russia and France a majority of the jury may render a verdict; in Germany two thirds is sufficient. So many criminals escape their deserts in these times through disagreements of juries that the proposed change is likely to find favor with the public. The requirement that a jury of twelve men must be unanimous to give a verdict takes no account of the modern art of jury fixing. The corruption of a single juror is sufficient to defeat the ends of justice, and where there is a reasonable doubt of guilt it is scarcely likely that ten jurors could be found willing to unite in a verdict against the accused person.—Gazette.

In this State three-fourths of a jury in a civil case can render a verdict, and since the law has been in operation it has worked satisfactorily, and there is no valid reason why the same proportion should not be adopted in criminal cases. Many a criminal has been saved from merited punishment by a single purchased, obstinate or dunder headed juror standing out against eleven, honest, intelligent and conscientious men.

Lottery in Hawaii.

The Louisiana Lottery Company have secured a charter in the Sandwich Islands. The bill has been passed and awaits the Queen's signature.

The company is to pay the Hawaiian government \$500,000 annually in quarterly installments. Of this sum \$100,000 is to be paid as a subsidy to such company as shall operate a submarine cable between Honolulu and a port on the North American continent, connecting with an American telegraphic system. The remainder of the \$500,000 is to be expended in various ways for the benefit of the Hawaiian kingdom.

The capital stock of the lottery company is to be \$5,000,000, with the option of increasing the stock to \$10,000,000. Two commissioners appointed by the Queen shall preside at all lottery drawings to secure perfect fairness in the allotment of prizes.

The same company would have paid Nevada the same sum for a franchise, but "highly moral" people of the State wouldn't stand it.

The Warden Fight.

There was a lull in the battle yesterday. Both sides lay in their trenches and there was a general truce declared. Gen. Wallace got a leave of absence to go to San Francisco Friday evening but is expected back to resume command tomorrow.

The anti-Bell men are now ready to join in a general engagement in caucus at any time and will insist on coming down to business on Monday.

The grand jury of Santa Clara county, California, in which Senator Stanford's celebrated Palo Alto stock farm is located, rendered a report the other day. It says that Senator Stanford's horses were assessed for the year 1892 at a valuation of \$43,000 while the estimation of the grand jury \$500,000 would be a fairer assessment for the trotting and thoroughbred stock. The buildings and improvements are assessed at \$100,000 while the valuation thereof is at least \$1,200,000. These improvements include the buildings of the Leland Stanford Jr. University.

We thought that Stanford always told the American people that the gift amounted to twenty millions. Another bubble explodes.

Silver men have no reason to feel discouraged says the Denver News. The goldbugs have both hands in the mouth of the free coinage grizzly and cannot let go. The Sherman law is doing its work slowly, steadily and surely. It is free coinage or filibustering until the next congressional election.
